DETAILED ACTION

Acknowledgments

1. Acknowledgment is made of the IDS filed 1/30/02.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "46, 48, 50, 52, and 54" are not in the figures. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 15 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. Claims 15 and 18 recite the limitation "wear strip" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 3618

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

~~The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act~~

of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000.

Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

7. Claims 1-22 are rejected under 35 U.S.C. 102(e) as being anticipated by Lachance (6,520,512 B1).

Lachance discloses a snowmobile ski comprising a longitudinal extending runner 20 with bottom surface 32 and upwardly extending curved forward portion 26, a keel 30, a generally flat, elongate wear strip 42 with a pair of downwardly extending, rectangular, integral skags 36,38 defining a channel between the inside surfaces of the skags, wherein the skags taper off at front and rear ends and are positioned more towards the rear of the runner, and the skags include carbide strips 52,53, said ski further comprising an attachment mechanism including a plurality of threaded rods 58,60, secured by nuts 61, as shown in figures 1-6.
